

## IOB Treasury Transparency Plan – Base v1.0

This document outlines the treasury and fund management strategy for the IOB Token on Base. The objective is to maximize transparency, ensure investor protection, and align with best practices in Web3 DAO governance.

### Official Safe Address

0xc5086e22eb99A90F345c0b6602b09b1032bb1aB6

| Safe Type          | Chain | Purpose  |
|--------------------|-------|--|
| Base Treasury Safe | Base  | Main treasury for presale ETH/USDC and IOB allocations |
| Investor Streams   | Base  | Vesting distribution for presale investors via Sablier |
| Liquidity Pools    | Base  | Aerodrome LP injection, LP locks, bribes               |
| DAO Treasury       | Base  | Incentives, staking, rewards, community funding        |

### Fund Flow

| Category              | Percentage | Details  |
|-----------------------|------------|--|
| Liquidity Pools       | 40–50%     | Injected into Aerodrome LP (IOB/ETH), LP tokens locked |
| Marketing & Campaigns | 20–25%     | TaskOn, Zealy, Galxe, KOL partnerships                 |
| Development & DAO     | 15%        | Protocol upgrades, DAO treasury management             |
| CEX Listings          | 5–10%      | Reserve for exchange listings and market making        |
| Community Incentives  | 10–15%     | NFT staking rewards, airdrops, quests                  |

### Sablier Vesting Integration

| Investor Type        | TGE Unlock          | Vesting Period | Streaming Method                 |
|----------------------|---------------------|----------------|----------------------------------|
| Presale Investors    | 20%                 | 9–12 months    | Sablier linear streaming         |
| Founders & Core Team | 0% (12-month cliff) | 24–36 months   | Sablier streams                  |
| Partners & Advisors  | 10%                 | 12–18 months   | Sablier streams                  |
| Marketing Reserve    | Variable            | 12–18 months   | Released in tranches via Sablier |

# Transparency Commitment

- All presale funds will be secured in the Base Safe multisig (4/7 signers).
- Official Base Safe Address: 0xc5086e22eb99A90F345c0b6602b09b1032bb1aB6
- All IOB token allocations (investors, LP, DAO, marketing) will be visible on BaseScan.
- All vesting contracts will be executed via Sablier, with links published for public verification.
- LP tokens will be locked and proof shared with the community.
- DAO governance will progressively gain control of treasury to ensure decentralization.

*Disclaimer: This plan is provided for transparency and does not constitute financial advice. Allocations and vesting may evolve with DAO governance and market conditions.*
