

# IO Beats – Multisig Safe Architecture & Vault Addresses

Version v1.0 – September 2025

## Executive Summary

The IO Beats Treasury uses a robust multisig Safe architecture deployed across multiple blockchains. Each chain maintains its own Main Safe and Vaults (Presale, Community, Staking, Liquidity, Team, Founders, Treasury). This ensures security, transparency, and alignment with DAO-approved tokenomics.

## Governance Policy

All vaults operate under a strict 4/7 multisig governance policy. Transactions require approval by a majority of signers, ensuring no single party can control funds.

## Vaults & Tokenomics Allocation

- 1 Presale Vault – 10B IOB | 18 months vesting | 10% TGE | 2 months cliff
- 2 Community Vault – 12.5B IOB | DAO reserve | Max 5%/year
- 3 Staking Vault – 7.5B IOB | Locked 48m release
- 4 Liquidity Vault – 7.5B IOB | LP locked 12–24m
- 5 Team Vault – 5B IOB | 6m cliff | 36m vesting
- 6 Founders Vault – 2.5B IOB | 12m cliff | 48m vesting
- 7 Treasury Vault – 5B IOB | DAO controlled | 24m lock

## Vault Addresses per Chain (Placeholders)

### **Base**

- 1 Presale Vault: 0xPRE...BASE
- 2 Community Vault: 0xCOM...BASE
- 3 Staking Vault: 0xSTK...BASE

- 4      Liquidity Vault: 0xLIQ...BASE
- 5      Team Vault: 0xTEAM...BASE
- 6      Founders Vault: 0xFND...BASE
- 7      Treasury Vault: 0xTRE...BASE

### ***Ethereum***

- 1      Presale Vault: 0xPRE...ETH
- 2      Community Vault: 0xCOM...ETH
- 3      Staking Vault: 0xSTK...ETH
- 4      Liquidity Vault: 0xLIQ...ETH
- 5      Team Vault: 0xTEAM...ETH
- 6      Founders Vault: 0xFND...ETH
- 7      Treasury Vault: 0xTRE...ETH

### ***Arbitrum***

- 1      Presale Vault: 0xPRE...ARB
- 2      Community Vault: 0xCOM...ARB
- 3      Staking Vault: 0xSTK...ARB
- 4      Liquidity Vault: 0xLIQ...ARB
- 5      Team Vault: 0xTEAM...ARB
- 6      Founders Vault: 0xFND...ARB
- 7      Treasury Vault: 0xTRE...ARB

### ***Polygon***

- 1      Presale Vault: 0xPRE...POLY
- 2      Community Vault: 0xCOM...POLY
- 3      Staking Vault: 0xSTK...POLY
- 4      Liquidity Vault: 0xLIQ...POLY
- 5      Team Vault: 0xTEAM...POLY
- 6      Founders Vault: 0xFND...POLY
- 7      Treasury Vault: 0xTRE...POLY

### ***BNB Chain***

- 1      Presale Vault: 0xPRE...BNB
- 2      Community Vault: 0xCOM...BNB
- 3      Staking Vault: 0xSTK...BNB

- 4      Liquidity Vault: 0xLIQ...BNB
- 5      Team Vault: 0xTEAM...BNB
- 6      Founders Vault: 0xFND...BNB
- 7      Treasury Vault: 0xTRE...BNB

## Security Notes

- 1      All vaults require 4/7 multisig approval.
- 2      Hardware wallets (Ledger, Trezor) used for signer security.
- 3      Seed phrases stored offline in secure environments.
- 4      Recovery procedures established for compromised devices.

## Branding & Identity

Beatsape – official mascot of IO Beats. Symbolizes the bridge between professional treasury security and community creativity.

## Legal Disclaimer

This document is for transparency purposes only. Vault addresses are placeholders and must be updated once locks are executed on-chain. Allocations and policies are subject to DAO governance and may evolve.
