

IO Bears Treasury – Appendix B v1.2 (Multichain)

Strategy & Governance

Treasury Allocation	66% of total supply secured in 4/7 Multisig Safes
Networks Covered	Ethereum, Base, Polygon, BNB, Arbitrum
Presale Policy	All unsold tokens will be burned
Governance Model	Dynamic, decentralized multisig approvals (4 of 7)
Legacy Locks	Deprecated, replaced by audited multisig structure

Key Benefits

■ Security	4 of 7 multisig approvals required for execution
■ Multichain	Treasury secured on 5 major networks
■ Transparency	All actions verifiable on-chain
■ Scarcity	Unsold presale tokens permanently burned
■ Governance	Collective accountability and trust

Investor Transparency Metrics

Tokens Secured	66% (across all chains)
Active Safes	5 Multichain Safes (ETH, Base, Polygon, BNB, Arbitrum)
On-Chain Proofs	20+ Verified Transaction Hashes

On-Chain Proof & Transparency
