

# DAO Snapshot Governance Activation – IO Beats DAO (Clean Premium Edition)

---

## Executive Summary

This document outlines the activation and governance structure of the IO Beats DAO Snapshot ecosystem. It establishes a transparent multi-chain governance process operating across Ethereum, Base, Polygon, BNB Chain, and Arbitrum.

## Governance Overview

IO Beats DAO governs tokenomics, NFT yield allocation, and treasury management through the \$IOB token. The DAO operates across multiple chains, each with independent Snapshot spaces to ensure transparent on-chain voting and decentralized participation.

## Governance Rules

**Quorum:** 25,000,000 IOB

**Proposal Threshold:** 2,500,000 IOB

**Voting Delay:** 1 hour

**Voting Period:** 48 hours

**Approval Ratio:** 51% FOR

**Vote Cap:** 3,000,000 IOB / wallet

**Treasury Safe:** 4-of-7 multisig

**Voter Incentive:** 0.5% DAO rewards per vote

## Tasks

- Deploy Snapshot space
- Define governance roles & voting power
- Write and publish governance voting guide
- Create first governance test proposal

- Link public Snapshot space in README
- Update CHANGELOG (v1.1 section)

## Definition of Done

- Snapshot space live and accessible publicly
- Governance guide merged in /docs
- At least one governance proposal created and visible
- Issue labeled as “status: done”

## Multi-DAO Snapshot Setup

Chain	ENS / Space	Function
Ethereum	iobdao.eth	Main DAO Governance
Base	iobbase.eth	Treasury / DeFi Management
Polygon	iobpolygon.eth	Creator & Artist DAO
BNB Chain	iobbnb.eth	Marketing DAO
Arbitrum	iobarbitrum.eth	Layer-2 R&D DAO

## ENS Portfolio

Priority	ENS Domain	Purpose
1	iobeatsdao.eth	DAO / Snapshot / Main Safe
2	iobeatsfoundation.eth	Legal / Institution DAO
3	iobeats.eth	Main domain / official site
4	iobeatsnft.eth	NFT / Mint platform
5	iobeatsstudio.eth	Streaming / dApp
6	beatsape.eth	Parallel NFT Collection
7	io-beats.eth	Anti-squat variant
8	iobeatsbase.eth	L2 Base branch
