IO BEATS — BNB PRESALE PREVIEW v1.0 (Premium Orange Edition)

Official DAO Document · © 2025 IO Beats DAO

Audited by Cyberscope · Powered by Safe · Sablier · Snapshot · TaskOn Custom

PROJECT OVERVIEW

IO Beats DAO is launching a five-round presale on BNB Chain to distribute 2 billion IOB tokens (4% of total supply). Each package combines token allocation + NFT utility + DAO rights + vesting rewards. Goal → raise 1,000,000 USD hard cap across 5 weeks via TaskOn Custom and IO Beats dApp.

CORE OBJECTIVES

• Raise 1M USD liquidity for BNB DAO launch vaults
• Distribute up to 2B IOB with structured vesting and FOMO-driven price growth
• Expand community from BNB to ETH/Base multi-chain DAO
• Activate on-chain governance and reward long-term holders

TOKEN ALLOCATION (2B IOB TOTAL)

Allocation	Tokens	% of Presale	Purpose
Presale Packages	1.5B IOB	75%	Distributed via 5 rounds
Airdrops & Marketing	0.5B IOB	25%	Community growth & exposure

TOKEN FLOW & TRANSPARENCY

All funds are held in BNB Safe Treasury:

LEGAL DISCLOSURE

This document is provided for informational purposes only and does not constitute an offer to sell or a solicitation to buy any securities or financial instruments. The IO Beats DAO Presale is a community-driven digital asset event conducted under decentralized governance principles. All participants acknowledge the inherent risks of digital assets and DeFi protocols, including volatility, smart contract risks, and regulatory uncertainties.

DAO DISCLAIMER

The IO Beats DAO operates as a decentralized autonomous organization across multiple blockchains (Ethereum, Base, BNB, Polygon, Arbitrum). Governance decisions are executed via on-chain voting using $IOB tokens through Snapshot spaces. DAO funds are transparently managed via multisig Safes, with all transactions verifiable on-chain. Participation in governance, staking, or presale implies acceptance of the DAO's decentralized framework and community consensus model.
