IO BEATS — BASE PRESALE PREVIEW v1.0 (Premium Orange Edition)

PROJECT OVERVIEW

IO Beats DAO is launching a five-round presale on Base Network to distribute 2 billion IOB tokens (4% of total supply). Each package combines token allocation + NFT utility + DAO rights + vesting rewards. Goal → raise 1,000,000 USD hard cap across 5 weeks via TaskOn Custom and IO Beats dApp.

CORE OBJECTIVES

• Raise 1M USD liquidity for Base DAO launch vaults
• Distribute up to 2B IOB with structured vesting and FOMO-driven price growth
• Expand community from Base to ETH/BNB multi-chain DAO
• Activate on-chain governance and reward long-term holders

TOKEN ALLOCATION (2B IOB TOTAL)

Allocation	Tokens	% of Presale	Purpose
Presale Packages	1.5B IOB	75%	Distributed via 5 rounds
Airdrops & Marketing	0.5B IOB	25%	Community growth & exposure

TOKEN FLOW & TRANSPARENCY

All funds are held in Base Safe Treasury:

LEGAL NOTICE

DAO DISCLAIMER

The IO Beats DAO operates as a decentralized autonomous organization on multiple blockchains (Ethereum, Base, BNB, Polygon, Arbitrum). Governance decisions are executed via on-chain voting using $IOB tokens through Snapshot spaces. DAO funds are transparently managed via multisig Safes, with all transactions verifiable on-chain. Participation in governance, staking, or presale implies acceptance of the DAO's decentralized framework and community consensus model.
